- (c) You are aware that Instructions and information transmitted via the Exchange and/or Services are generally transmitted via the Internet and may be routed via public, transnational installations which are not specifically protected. We cannot guarantee that the Instructions and information so transmitted will in fact be completely protected against such unauthorised access, and you accept these associated risks.

- (e) You agree without prejudice to any provision of the Agreement that, to the extent there are any terms in your local jurisdiction governing the time and place of dispatch and receipt of electronic communication, to the maximum extent permitted under Applicable Law, such terms should not apply to your use of the Exchange and/or Services and that you should be liable for any damage that may be caused through the use of the Internet, including through loss, delay, misunderstandings, corrupted texts, unauthorised interceptions by third parties or duplicates.
- (f) You acknowledge and agree that in the event of any dispute arising in connection with your use of the Exchange and/or Services, our records (including electronic, computer and microfilm stored records) of all matters relating to your use of the Exchange and/or Services (including Transaction History) at any specified date should be conclusive of their accuracy and authenticity and should be binding on you for all purposes whatsoever. In addition, you agree not to challenge the validity, admissibility or enforceability of such records on the basis that they are in electronic form, without further requirement of proof of authenticity or accuracy in a court of law under applicable evidentiary law, rules and/or regulations.

6.3 Giving and receiving Instructions

- (a) You may provide Instructions through the Agreed Communication Methods that apply to the Exchange.

We may also be unable to cancel or amend an unexecuted or partly executed Instruction for any reason.
- (d) We use our reasonable endeavours to execute the Instructions, but we do not guarantee that the Instructions will be wholly or partially executed or will be executed by a certain time. Partially exercised Instructions may not be cancelled or reversed on the basis that the Instructions have not been wholly exercised. We are not responsible for any delays due to a Force Majeure Event, a Network Event, market factors, our own verification or authorisation processes or any other reason whatsoever, nor for executing an Order before processing any cancellation or amendment that you may send to us.

6.4 Acknowledgement of Instructions

- (a) We agree to acknowledge your Instructions in relation to the entry into an Order, through the Agreed Communication Method.
- (b) If we do not acknowledge your Instructions under clause 6.4(a), that Instruction is deemed to not to have been received by us.

6.5 When we may refuse, cancel or reverse Instructions

- (a) We reserve the right at all times to refuse, cancel or reverse your Instructions, without giving any reason or explanation or prior notice. For example, we may, in addition to any other rights we may have:
 - (i) decline to accept your Instructions where:
 - (A) we believe that:
 - (aa) the Instruction could result in a breach of any Applicable Law;
 - (ab) a pre-condition under clause 12.4 has not been satisfied;
 - (ac) the pre-pay requirement under clause 11.1 has not been met, where applicable;
 - (ad) the Instruction is unclear, ambiguous or incomplete; or
 - (ae) the Instruction involves Market Misconduct or would constitute a Prohibited Transaction;
 - (B) you or a counterparty are prevented from completing an Order, or it becomes impossible or impracticable for you or a counterparty to complete an Order, due to a Force Majeure Event;
 - (C) you disaffirm, disclaim, repudiate or reject, in whole or in part, the Agreement, any Confirmation or any Order (or such action is taken by an Authorised Person on your behalf);
 - (D) in our opinion, you are in material breach of any provision of the Agreement;
 - (E) an Event of Default has occurred; or
 - (F) you fail to provide any information requested by us in respect of an Order, or where required to do so in compliance with the Agreement, any Applicable Law or the requirement of any contract;
 - (ii) where you, an Authorised Person, or a person we believe is connected with you, appears to be a Proscribed Person:
 - (A) refuse to process or complete any Instruction, suspend the provision of a service to you;
 - (B) refuse to allow or to facilitate any Order for you or to any other Proscribed Person or other person; or

Exchange.

- (b) Without limiting clause 6.5(a) or any other rights we may have under the Agreement, we may:
 - (i) decline to act on your behalf or accept your Instructions where:
 - (A) the original Instruction has expired and is not reconfirmed at that time;
 - (B) the basis for any quotation for the relevant Virtual Asset has changed and the Instruction has not been reconfirmed;

- (c) If we exercise our rights under this clause 6.5 you must pay us on demand any Loss that we incur in relation to any action taken under that clause or any Applicable Law.

6.6 Risks of giving Instructions

You acknowledge and accept the risks of giving Instructions by the Agreed Communication Method, including the risk of any Instructions being unauthorised or given by an unauthorised person, the risk that we may process Instructions twice if you send the same Instructions to us in different forms and the risk that any information sent by electronic means cannot be guaranteed to be secure or free from virus or delay.

7 Payments, deliveries and other obligations

7.1 Payment and deliveries

- (a) We may refuse to accept or make (or accept or make on such terms as it may determine) any transfer of a Virtual Asset from or to you and we will provide notice of any such refusal as soon as reasonably practicable. In particular, we may refuse to facilitate any transfer of assets that are not Eligible Virtual Assets, whether through the Trade Engine or otherwise, and you cannot use any such assets to settle an Executed Order.
- (b) You acknowledge and agree that if at any time there are (having regard to other payments debited or due to be debited) insufficient Eligible Virtual Assets recorded in a relevant Account or any amount owed to us, we may, in our sole discretion and without any obligation to do so:
 - (i) decline to execute your Instructions; and
 - (ii) force-sell any Eligible Virtual Assets held by us on your behalf, in each case without further instruction or sanction from you.

7.2 Withholding

- (a) It is your sole responsibility to determine whether, and to what extent, any Taxes apply to any transactions associated with your receipt or transfer of Virtual Assets and/or to the Orders you conduct and to withhold, collect, report and remit the correct amounts of Taxes to the appropriate tax authorities. Your Transaction History is available through the Website. We are not obligated to,

nor will we determine whether, and to what extent, Taxes apply, or calculate, collect, report, or remit any Taxes to any tax authority arising from any transaction.

- (b) If any Applicable Law requires you to deduct any Tax from a payment to us, you must increase the amount payable so that, after making the deduction, we receive the amount we would have received if no deduction had been required. You agree to deduct the amount for the Tax, pay that amount to the relevant Government Agency in accordance with Applicable Law and give us the original receipts.
- (c) We may be required to withhold payments to you, and pass such amounts to a Government Agency. If at any time any relevant Government Agency requires us to make a deduction or withholding on any payment due to you, you agree to immediately reimburse us for the amount of any such deduction or withholding or we may recover such amount in accordance with clause 7.1(b)(ii) or sell such property pursuant to clause 7.5(c). You will indemnify us against any Loss we suffer or incur as a result of such deduction or withholding.

7.3 Value added tax

- (a) All payments to be made by you in connection with the Agreement are calculated without regard to any goods and services tax, consumption tax, value added tax or any Tax of a similar nature.
- (b) If any of these types of Taxes are payable in connection with the payment, you must pay us an additional amount equal to the payment multiplied by the appropriate rate of Tax. You must do so at the same time as making the payment.

7.4 Independent payment obligations

Your obligation to pay any amount under the Agreement is separate from each of your other obligations to pay.

7.5 Rights of netting, set-off and lien

- (a) If, on any day, either or you or Crypto.com have payment and delivery obligations in the same Virtual Asset in respect of two or more Executed Orders, then we may elect for such Virtual Asset to be delivered, on a net basis so that such obligations will be automatically satisfied and discharged. If, in respect of the same Virtual Asset, the aggregate amount that would otherwise have been payable by one party exceeds the aggregate amount that would otherwise have been payable by the other party, such payment and delivery obligations will be replaced by an obligation upon the party by which the larger aggregate amount would have been payable to pay to the other party the excess of the larger aggregate amount over the smaller aggregate amount.
- (b) In addition to our rights under clause 7.5(a), we may at any time and without notice to you set off or recover any amount we owe you against any amount that you owe us or, where more than one person constitutes our client, that any one or more of those persons singly or jointly owe us (in either case, whether or not the obligation is matured or contingent and irrespective of the currency, asset or place of payment). Any amounts that are so set off will be discharged promptly and in all respects.
- (c) We are entitled to exercise a lien over any or all of your property which (for any reason) is in or comes into our possession or control, except that this lien does not cover any property where it may give rise to any obligation to disclose an interest on our part. We have the right to sell such property and apply the proceeds of sale, after deduction of reasonable Costs, to satisfy any amount you owe us.
- (d) For the purposes of this clause 7.5, we may make any conversion at a rate

that we reasonably consider appropriate.

- (e) Our rights under this clause 7.5 are in addition to any other right of set-off, offset, combination of accounts, lien, right of retention or withholding or similar right or requirement to which we are at any time otherwise entitled or subject whether under the Agreement or by operation of Applicable Law.

7.6 Payment in other asset

You waive any right you may have in any jurisdiction to pay any amount other than in the Eligible Virtual Asset in which it is due. If we receive an amount in an asset other than that in which it is due:

- (a) we may return the payment and require you to make the payment in the appropriate and due Eligible Virtual Asset. We may charge you for the Costs incurred in returning the payment to you; or
- (b) we may convert the amount into the due Eligible Virtual Asset on the date and at rates we reasonably consider appropriate. We may deduct Costs incurred in the conversion. In such circumstances, you must satisfy your obligations to pay in the due Eligible Virtual Asset only to the extent of the amount of the due Eligible Virtual Asset or other asset obtained from the conversion after deducting the Costs of the conversion.

7.7 Virtual Asset restrictions

- (a) You must comply with any exchange controls and Applicable Law in connection with the Agreement.
- (b) If a jurisdiction restricts the availability or transfer of any Virtual Asset, or we are otherwise unable to pay in a particular Virtual Asset, we need not make any payment to you in that Virtual Asset. We may make the payment in any Virtual Asset we reasonably consider appropriate, using a rate that we reasonably consider appropriate.

7.8 Conversion on judgment debt

If a judgment, order or proof of debt for or the recovery of an amount in connection with the Agreement is expressed in a Virtual Asset other than that in which the amount is due under the Agreement, then you agree to indemnify us on demand against:

- (a) any difference arising from converting the Virtual Asset, if the rate of exchange we would otherwise use under the Agreement when we receive a payment in the Virtual Asset is less favourable to us than the rate of exchange used for the purpose of the judgment, order or acceptance of proof of debt; and
- (b) the Costs of conversion.

7.9 Third party payments

We are not obliged to make any payments and or deliveries to a third party, except as expressly contemplated by the Agreement or otherwise agreed by us in writing. Any third-party payments may also be subject to conditions.

7.10 General conditions precedent to payments by us

Each of our obligations to make a payment or delivery, or to perform an obligation referred to in this clause 7.10, is subject to the conditions precedent that:

- (a) we are satisfied that you have fulfilled your corresponding obligations (if any) in accordance with all applicable terms;
- (b) no Event of Default has occurred and is continuing; and
- (c) such actions will not cause us to be in breach of any Applicable Law or our

internal policies.

7.11 Return of Virtual Assets

- (a) We may, at our discretion, upon the passage of an applicable time period determined by us or as otherwise required by Applicable Law or our internal policy, return any Virtual Assets recorded in your Account to a designated external address that is compatible with the relevant Virtual Asset and that is under your control, as last notified to us in writing.
- (b) If we receive Virtual Assets which are determined not to be Eligible Virtual Assets, upon our request, you must provide us with an external address under your control. Subject to Applicable Law and our internal policy, we will return the Virtual Assets received to such address.
- (c) To the extent permissible under Applicable Law, we reserve the right to deduct a Fee, Costs or other administrative charge in respect of the return of any Virtual Assets.

8 Calculations

8.1 Calculation agent

- (a) We are the calculation agent for each Executed Order. All calculations are carried out in our sole discretion, unless otherwise specified in the relevant Confirmation.
- (b) The calculation agent is, subject to the relevant Confirmation, responsible for:
 - (i) calculating the fees and any rates, amounts, periods and dates (including changes to any of them) in accordance with the Confirmation;
 - (ii) giving notice of such fees, rates, amounts, periods and dates;
 - (iii) determining the value of any Virtual Asset expressed in respect of another Virtual Asset;
 - (iv) effecting or calculating any Virtual Asset conversion necessary or desirable for the purposes of any Executed Order; and
 - (v) calculating any netting or set-off in accordance with clause 9.
- (c) The calculations and determinations of the calculation agent are final and binding on you in the absence of manifest error. They will be applied using such methodology as we determine in good faith and in our discretion.

8.2 Adjustments

- (a) If, in our opinion, any event or circumstance, including any Network Event or Force Majeure Event, occurs that adversely affects our ability in determining the amount payable to or by you in respect of any Order and such circumstances continue for a period of not less than five Business Days, we may make such adjustments to the method used or to be used to determine the amount payable to or by you in respect of any Executed Order in accordance with our customary practices or market practice of which we are aware (if any).
- (b) Adjustments made in accordance with clause 8.2(a) are binding and conclusive against you.

9 Netting and set-off

9.1 Netting

In respect of two or more Executed Orders to which you are a party, a net amount will be calculated by us as calculation agent in respect of all amounts payable on the same date in the same Virtual Asset in respect of such Executed Orders, regardless of whether such amounts are payable in respect of the same Executed Order.

9.2 Set-off and payment notice

Crypto.com will issue a payment notice to you for any Fees or amount that you owe (calculated by Crypto.com as calculation agent), including any amount owed to us as a result of us exercising our rights under these Exchange Terms and Conditions. If such amount is not repaid within seven Business days from the date of notification, you confirm and authorise Crypto.com to recover such amount from your other accounts with Crypto.com by debiting any assets in those accounts or otherwise setting off against amounts owed to you.

9.3 Our other rights

(a) Without limiting clauses 9.1 and 9.2, we may at any time and without notice to you:

- (i) set off any amount we owe you against any amount that you owe us; or
- (ii) recover any amount you owe us,

in either case, whether or not the obligation is matured or contingent and irrespective of the currency, asset or place of payment. Any amounts that are so set off will be discharged promptly and in all respects.

(b) Our right to net and/or set-off under this clause 9 is in addition to any other right of set-off, offset, combination of accounts, lien, right of retention or withholding or similar right or requirement to which us is at any time otherwise entitled or subject under the Agreement (including under clause 7.5(b)) or by operation of Applicable Law.

21 Network events

21.1 Infrastructure Participant, Network Participant and Network Event

In conjunction with Annex I of these Exchange Terms and Conditions; if:

then we may take any action which we, in our sole discretion, consider appropriate to correspond with the direction, decision, election or event (including a Network Event), or to mitigate any loss incurred or potential loss or impact which may be incurred as a result of such action or event. Any such action may result in suspension of access to, or adjustment of the balance in, your Account. Subject to Applicable Law, any such action will be binding on you (including, where relevant, making any decision or election in relation to a Network Event).

21.2 Cooperation and enquiries

Where any Infrastructure Participant, Network Participant or any regulatory body makes an enquiry which relates to the Exchange, your Account or an Order, you agree to co-operate with us and that any information relevant to the enquiry may be passed to any Crypto.com Group Member, or any Infrastructure Participant, Network Participant or regulatory body, as may be appropriate.

21.3 Network event

On each occasion of a Network Event, we may be forced to suspend certain activities relating to our Services or any Virtual Assets for an extended period of time till we have determined that such functionality can be restored. This could occur with potentially little or no warning and your ability to use the Services or Virtual Assets may be limited and subject to the Network Event. Upon becoming aware of a Network Event, to the extent that we have any rights or are able to take any action, we in our sole discretion may determine:

We will not be liable to you for failure to credit any Virtual Asset and/or benefits to you or participate in any Network Event. If we do not support a Network Event, we may claim such Network Event and any Virtual Assets and/or benefits in relation to it, for our own benefit (unless it is unavoidable or impractical to avoid based on the means of distribution). Where due to a Network Event, any newly created Virtual Assets and/or benefits in respect of any On-Exchange Assets have been received by you directly as an Off-Exchange Asset, we may claim such Virtual Assets and/or benefits from you and you agree to return such Virtual Assets and/or

benefits to us. You further agree that any Virtual Assets and/or benefits in relation to a Network Event do not create or represent any relationship between us and the sender and/or the related Virtual Asset network, and that we are not subject to any obligations whatsoever as they relate to the sender and/or the related Virtual Asset network;

- (c) whether to take any action that we deem appropriate, including determining who should have ownership or receive newly created Virtual Assets and/or benefits (if any);
- (d) in the event of a Network Event which results in loss of ownership or control of Virtual Assets, how such loss is apportioned; and
- (e) whether to halt transactions or to cease, amend or suspend relevant Services pertaining to a specific Virtual Asset (or generally) or any other activities for any period of time, which period of time may also be extended in our sole discretion.

- (a) to any person in connection with an exercise of rights or a dealing with rights or obligations under the Agreement;

- (b) to officers, employees, legal and other advisers and auditors of any party;
- (c) to any party to the Agreement or any related companies of any party to the Agreement, provided the recipient agrees to act consistently with this clause 24.17;
- (d) with the consent of the party who provided the information (such consent not to be unreasonably withheld);
- (e) publishing relevant Orders and other Instructions on a non-attributed basis on the Exchange;
- (f) any disclosure the disclosing party reasonably believes is required by any Applicable Law or Government Agency; or
- (g) otherwise in accordance with the Agreement.

Each party consents to disclosures made in accordance with this clause 24.18.

24.19 Data protection

You also agree that the Data may be transferred, disclosed, stored, processed and maintained by us electronically on servers, or in hard copy or original format in a number of different jurisdictions. As certain jurisdictions have strict laws around exporting restricted classes of data, you agree to advise us in writing immediately if any Data that may be disclosed to, or accessed by us or a subcontractor in performing the Services is subject to export control restrictions under Applicable Law. You will not provide us with Personal Data unless the Personal Data is required for the performance of the Services.

- (b) Subject to Applicable Law, we reserve the right at any time to satisfy our internal requirement as to your Personal Data (for example, by requesting relevant original documents) including for the purposes of preventing fraud and/or anti-money laundering and counter-terrorist financing purposes.
- (c) In respect of any Personal Data shared with us, you confirm you have the necessary authority for us to use and transfer it in accordance with the Agreement, and that data subjects have been given necessary information regarding its use. You will comply with applicable data protection legislation in relation to any Personal Data shared with us in connection with the Agreement.
- (d) Use of Personal Data is governed by the Privacy Notice.

24.20 Anti-money laundering and sanctions

- (b) You must provide to us upon request all information and documents that are within your possession, custody or control reasonably required by us from time to time, and as necessary in order for us to comply with any applicable AML/CTF Requirements.
- (c) You agree that we may disclose any information concerning you to any Government Agency, law enforcement entity, regulatory agency or court (in any jurisdiction) where required by any Applicable Law.
- (d) You agree to exercise your rights and perform your obligations under the Agreement in accordance with all applicable AML/CTF Requirements.
- (e) You agree to provide evidence of due authority and specimen signatures for each Authorised Person.
- (f) You agree that we may take a sufficient time to consider, verify or block an Order, if you or any other person or entity in connection with the Order becomes a sanctioned person or entity, or upon the occurrence of a match on our sanction filters.

24.21 Feedback, queries and complaints

- (a) If you have any feedback, questions or complaints, please contact us via email at contact@crypto.com or through our live chat available on the Exchange or Services. Whilst we strive to respond to you as soon as possible, for more complicated issues, it may take us up to 45 days or longer to resolve and get back to you. You accept and agree that we shall not be responsible for any loss and damage incurred during such period.
- (b) By submitting feedback or suggestions ("**Feedback**") to us through the App or other means, you acknowledge and agree that:
 - (i) your Feedback does not contain confidential or proprietary information of you or any third party;
 - (ii) we are not under any obligations of confidentiality with respect to the Feedback;
 - (iii) we may freely use, reproduce, distribute, and otherwise utilise the Feedback for any purpose; and
 - (iv) you are not entitled to any compensation of any kind from us.

25 Statements and records

25.1 Transaction records

You may access your Transaction History and records in your Account. You are responsible for checking Account statements for errors.

You must report any mistaken or unauthorised Orders, Executed or otherwise, to us as soon as possible. Unless otherwise stated, if you do not report such Orders to us within three days of the date of the Order, we are entitled to treat the Order as correct.

25.3 Reversals

We may cancel, reverse or debit any Virtual Asset transfer we make under the Agreement (including any interest paid) and make any corresponding adjustments to

an Account:

- (a) to correct a mistake;
- (b) if we have not received cleared and unconditional Virtual Assets in full and promptly; or
- (c) if we have reasonable grounds for doing so.

26 Notices and communications

26.1 Notices and electronic delivery

- (a) You authorise us to deliver all communications, agreements, documents, notices, disclosures and Confirmations to you by an Agreed Communication Method, through any other electronic means as we deem fit, or via telephone calls.
- (b) It is your responsibility to ensure that the details of your Agreed Communication Method are correct and the Agreed Communication Method is operational and available for receipt of all communications and to notify us of any changes to the details of your Agreed Communication Method as soon as practicable after the change is made.
- (c) In some cases, our communications may only be posted on the Website or App.

26.2 Delivery

- (a) Communications take effect from the time they are received or taken to be received under clause 26.2(b) (whichever happens first) unless a later time is specified in the communication.
- (b) Communications are taken to be received:
 - (i) if sent by email:

when we receive an automated message confirming delivery; or

4 hours after the time sent (as recorded on the device from which we sent the email) unless we receive a delivery failure receipt;
 - (ii) if delivered via other electronic means, 24 hours after we send it; and
 - (iii) if posted on the Website or App, at the time of posting.
- (c) Your notices and communications are effective when we actually receive them in legible form. If that occurs after 5:00pm in the place of receipt or on a non-Business Day, the relevant notice or communication is taken to be received at 9.00am in that place on the next Business Day and takes effect from that time unless a later time is specified.

26.3 Notice to us

Notices to us should be sent electronically to our support system at contact@crypto.com

26.4 Digital signatures

Instructions and communications digitally signed and supported by a digital certificate have the same validity, admissibility and enforceability as if signed in writing. Any notice or communication that is digitally signed must comply with any Applicable Law.

26.5 Electronic contracts

You acknowledge and agree that you are satisfied that electronically executed contracts are enforceable despite the legal risks associated with them. You agree not

to dispute the contents of any notice or communication sent by us using electronic equipment.

26.6 Client constitutes more than one person

If an Account is established for more than one person in accordance with the Agreement, notices and communications (including notices of any variation to the Agreement and any statements (including any consolidated statements)) sent to the email notified to us as the email for receipt of notices and other communications in connection with the Agreement are taken to be given to all persons.

26.7 Recording of communications

 - (ii) the information in our records,the information in our records will prevail unless there is a manifest error.
- (c) We may issue a further record if any previous one contained any errors or omissions, in which case that further record will supersede any previous one in all respects (unless it states otherwise).

26.9 Governing law

- (a) Unless otherwise specified, the Agreement, your use of the Service or Website are governed by the law in force in Hong Kong.
- (b) To the extent permitted by Applicable Law, the Agreement prevails to the extent that it is inconsistent with Applicable Law. Any present or future law which operates to vary the obligations of Crypto.com in connection with the Agreement with the result that Crypto.com's rights, powers or remedies are adversely affected (including by way of delay or postponement) is excluded except to the extent that its exclusion is prohibited or rendered ineffective by Applicable Law.

26.10 Submission to arbitration

- (a) To the extent permitted by law, you agree to waive your rights to a jury trial and

to have any dispute arising out of or related to the Agreement, the Exchange and/or the Services resolved in court. Instead, for any dispute or claim that you have against Crypto.com or relating in any way to the Agreement, the Exchange and/or the Services, you agree to first contact Crypto.com and attempt to resolve the claim informally by sending a written notice of your claim (“**Notice**”) to us by email at contact@crypto.com.

The Notice must:

- (i) include your name, residence address, email address, and telephone number;
- (ii) describe the nature and basis of the claim; and
- (iii) set forth the specific relief sought.

Our notice to you will be similar in form to that described above. If you and Crypto.com cannot reach an agreement to resolve the claim within 30 days after such Notice is received, then either party may submit the dispute to binding arbitration in accordance with clause 26.10(c).

- (b) Unless otherwise specified and without limiting clause 26.10(a), any dispute, controversy, difference or claim arising out of or relating to the Agreement, including the existence, validity, interpretation, performance, breach or termination thereof or any dispute regarding non-contractual obligations arising out of or relating to the Agreement, the Exchange and/or Services will be referred to and finally resolved by arbitration administered by HKIAC under the HKIAC Administered Arbitration Rules in force when the Notice of Arbitration is submitted.
- (c) You and we agree that:
 - (i) the law of this clause is Hong Kong law;
 - (ii) the seat of arbitration will be Hong Kong;
 - (iii) unless you and we agree otherwise, the number of arbitrators will be 1 and that arbitrator must have relevant legal and technological expertise;
 - (iv) if you and we do not agree on the arbitrator to be appointed within 15 Business Days of the dispute proceeding to arbitration, the arbitrator is to be appointed by HKIAC;
 - (v) the arbitrator may conduct only an individual arbitration and may not:
 - (A) consolidate more than one individual's claims;
 - (B) preside over any type of class or representative proceeding; or
 - (C) preside over any proceeding involving more than one individual; and
 - (vi) the arbitration proceedings will be conducted in English
- (d) Any claim from you arising out of or related to the Agreement, the Exchange and/or Services must be filed within one year after such claim arose. Otherwise, the claim is permanently barred, which means that you will not have the right to assert the claim
- (e) Without limiting clause 24.18, the arbitrator, Crypto.com, and you will maintain the confidentiality of any arbitration proceedings, judgments and awards, including all information gathered, prepared and presented for purposes of the arbitration or related to the dispute(s) therein. The arbitrator will have the authority to make appropriate rulings to safeguard confidentiality, unless the law

provides to the contrary. The duty of confidentiality does not apply to the extent that disclosure is necessary to prepare for or conduct the arbitration hearing on the merits, in connection with a court application for a preliminary remedy or in connection with a judicial challenge to an arbitration award or its enforcement, or to the extent that disclosure is otherwise required by law or judicial decision.

- (f) Notwithstanding any other provision of the Agreement, you agree that we have the right to apply for injunctive remedies (or an equivalent type of urgent legal relief) or equitable relief in any jurisdiction.
- (g) Without limiting clause 26.10(a), you agree that any dispute arising out of or related to the Agreement, the Exchange and/or Services:
 - (i) is personal to you and Crypto.com; and
 - (ii) will be resolved solely through individual action, and will not be brought as a class arbitration, class action or any other type of representative proceeding.
- (h) Without limiting clause 24.12, if any portion of this clause 26.10 is found to be unenforceable or unlawful for any reason:
 - (i) the unenforceable or unlawful provision should be severed from these Exchange Terms and Conditions;
 - (ii) severance of the unenforceable or unlawful provision should have no impact whatsoever on the remainder of this clause 24.12 or the parties' ability to compel arbitration of any remaining claims on an individual basis pursuant to this clause 24.12; and
 - (iii) to the extent that any claims must therefore proceed on a class, collective, consolidated, or representative basis, such claims must be litigated in a civil court of competent jurisdiction and not in arbitration, and the parties agree that litigation of those claims should be stayed pending the outcome of any individual claims in arbitration.

Further, if any part of this clause 24.12 is found to prohibit an individual claim seeking public injunctive relief, that provision will have no effect to the extent such relief is allowed to be sought out of arbitration, and the remainder of this clause 24.12 will be enforceable.

26.11 Serving documents

Without preventing any other method of service, any document in an action may be served on:

- (a) us by being delivered or left at the address details stated on the front page of these Exchange Terms and Conditions; and
- (b) you by being delivered at the address last notified to us.

Annex I Risk disclosure statement

IMPORTANT

Trading in Virtual Assets and using the Exchange involve risks, some of which are set out below. These risks, and additional risks arising either now or in the future, could result in the loss, failure or destruction of your assets, inability to receive any benefits available to you, other losses and termination of the Exchange. You must consider carefully whether the risks set out below, as well as all other applicable risks, are acceptable to you prior to any Order.

You must seek professional advice regarding your particular situation *before* trading in Virtual Assets or using the Exchange. You must also check the latest terms applicable as they may change from time to time.

THE RISK OF LOSS IN TRANSACTIONS INVOLVING VIRTUAL ASSETS CAN BE SUBSTANTIAL. YOU SHOULD THEREFORE CAREFULLY CONSIDER WHETHER SUCH TRANSACTIONS ARE SUITABLE FOR YOU IN LIGHT OF YOUR INVESTMENT OBJECTIVES, FINANCIAL CIRCUMSTANCES, YOUR TOLERANCE TO RISKS AND YOUR INVESTMENT EXPERIENCE. YOU SHOULD BE CAPABLE OF BEARING A FULL LOSS OF THE AMOUNTS INVESTED AS A RESULT OF OR IN CONNECTION WITH ANY ORDER AND ANY ADDITIONAL LOSS OVER AND ABOVE THE INITIAL AMOUNTS INVESTED THAT MAY BECOME DUE AND OWING BY YOU. IN CONSIDERING WHETHER TO TRADE OR INVEST, YOU SHOULD INFORM YOURSELF AND BE AWARE OF THE RISKS GENERALLY, AND IN PARTICULAR SHOULD NOTE THE FOLLOWING SPECIFIC RISK FACTORS WHICH MAY APPLY TO ANY GIVEN ORDER.

1 Transaction and Exchange risks

1.1 Risks of Virtual Asset trading

The prices of Virtual Assets fluctuate, sometimes dramatically. The price of a Virtual Asset may move up or down, and may become valueless.

It is likely that losses will be incurred rather than profit made as a result of buying and selling Virtual Assets.

1.2 Nature of Virtual Assets

The Virtual Assets are not legal tender. A virtual asset may or may not be considered "property" under the laws of a particular jurisdiction.

They may not be backed by physical assets, and are not backed or guaranteed by a government. They may not have intrinsic value. Some of the Virtual Assets may not circulate freely or widely, and may not be listed on any secondary markets.

Virtual Assets are generally a high-risk asset class. You should exercise caution in relation to the trading of Virtual Assets, and Virtual Assets themselves.

Transactions involving Virtual Assets are irrevocable. Lost or stolen Virtual Assets may be irretrievable. Once a transaction has been verified and recorded on a blockchain, lost or stolen Virtual Assets generally will not be reversible.

1.3 Reliance on distributed ledger technology

Virtual Assets rely on various types of distributed ledger technology. Some of this technology is open source software that is built upon experimental technology, namely blockchain. Risks arising from this reliance include the existence of technical flaws in the technology, targeting by malicious persons, majority-mining, consensus-based or other mining attacks, changes in the consensus protocol or algorithms, decreased community or miner support, rapid fluctuations in value of relevant Virtual Assets, the existence or development of competing networks, platforms and assets, flaws in the scripting language, disputes between developers, miners and/or users and regulatory action.

1.4 Virtual Assets may be complex products

Virtual Assets may be complex products by virtue of the fact that the terms, features and/or risk are not readily understood due to the complex structure, novelty and reliance on technological features.

1.5 Volatility of Virtual Assets

The value of the Virtual Assets may fluctuate significantly over a short period of time. This is especially the case compared to Fiat Currencies. The volatile and unpredictable fluctuations in price may result in significant losses, including the total loss of your investment, over a short period of time.

Any Virtual Asset may decrease in value or lose all of its value due to various factors including discovery of wrongful conduct, market manipulation, change in the nature or properties of the Virtual Asset, governmental or regulatory activity, legislative changes, suspension or cessation of support for a Virtual Assets or other exchanges or service providers, public opinion, or other factors outside of our control. Technical advancements, as well as broader economic and political factors, may cause the value of Virtual Assets to change significantly over a short period of time.

1.6 Market, liquidity and conversion risk

Where an Order is denominated in particular Virtual Assets other than your primary reference asset, or where you convert Virtual Assets following the Execution of an Order, there is a risk that the exchange markets move against you. The net proceeds may therefore be significantly less than the initial amount in your primary reference asset, and any income or gains may be entirely negated.

The value of a particular Virtual Asset may decline, or be completely and permanently lost, should the market for that Virtual Asset disappear. There is no assurance that a market for a particular Virtual Asset will continue to exist in the future. This is because the value of a Virtual Asset may be derived, among other things, from the continued willingness of market participants to exchange that Virtual Asset.

There is the possibility that you may experience losses due to the inability to sell or convert assets into a preferred alternative asset immediately or in instances where conversion is possible but at a loss. Such liquidity risk in an asset may be caused by the absence of buyers, limited buy/sell activity or underdeveloped secondary markets.

There is no assurance that a person who accepts a Virtual Asset as payment, will continue to do in the future.

You may also suffer loss as a result of depreciation in the value of the Virtual Asset paid as a result of controls imposed by a Government Agency. Repayment or payment of amounts due to you may be delayed or prevented by exchange controls or other actions imposed by governmental or regulatory bodies over Virtual Assets that they control or regulate.

1.7 Not a deposit

Without limiting clause 4.2(d), any Eligible Virtual Assets held by us are not held as “deposits”, nor are they intended to be held as any other regulated product or service under Applicable Law.

1.8 Not a trust arrangement

Subject to Applicable law, we do not hold On-Exchange Assets on trust or under any similar arrangement for you. This has a variety of implications, some of which are described in clause 5.2. In a worst case, you may lose all of your On-Exchange Assets if we suffer a major loss due to a hacking incident or become unable to fulfill our obligations for any reason. Our contractual obligations are not secured by any collateral granted by us in your favour.

1.9 Risks associated with statutory protection schemes

You should be aware that in comparison to other assets, including Fiat Currencies and trading:

- (a) any Order in respect of Virtual Assets may not be subject to a right to claim under any investor compensation fund established by any Government Agency; and
- (b) any Virtual Assets held in an Account may not be protected deposits, and may not be protected by any deposit protection scheme in any jurisdiction.

This means that Virtual Assets may have a reduced level or type of protection compared to Fiat Currencies, as well as other products and asset classes.

1.10 Commissions and fees

- (a) Before conducting any Order, you should obtain details of all commissions, fees and Costs for which you will be liable.
- (b) If any of the fees and Costs are not clear to you, you should request the fee and Costs that will be applicable in specific monetary terms before entering into an Order.

1.11 Risks of assets subject to other overseas laws

Virtual Assets received or held by us may be subject to other applicable laws and regulations of the relevant overseas jurisdictions.

1.12 Risks relating to Authorised Persons

There are substantial risks in allowing another person to trade or operate your Account or any other account you have with us, and it is possible that Instructions could be given by persons who are not properly authorised. You accept all of the risks of such an operation and irrevocably release us from all liabilities arising out of or in connection with such Instructions.

1.13 Suspension of the Exchange and Network Events

It may be difficult or impossible to liquidate a position in the Virtual Assets under certain circumstances. Certain Network Events may occur rapidly and affect the ability to conduct transactions on the Exchange. Information relating to these Network Events may be difficult to ascertain ahead of time and may be subject to limited oversight by a third-party who is capable of intervening to stabilise the network.

1.14 Risks of competing Virtual Assets

The success of Virtual Assets individually and collectively can be influenced by the successes and failures of other assets, blockchain projects and other matters (including the emergence of central bank digital currencies and other potential

competitor assets). There are often several virtual assets that have similar functionality, and which are competitors. Competing virtual assets may impact the value of a particular Virtual Asset.

1.15 Virtual Asset manipulation risks

Due to the largely unregulated nature of Virtual Assets (at a product-level) and comparatively early-stage status, Virtual Asset markets are susceptible to actual or alleged manipulation. For example, false or misleading trading activity can be conducted on unregulated trading, lending or other dealing platforms for the purpose of manipulating the price of certain Virtual Assets.

These can result in the markets for Virtual Assets being vulnerable to fluctuation.

2 Cybersecurity and technology-related risks

2.1 Loss of private key is permanent and irreversible

You alone are responsible for securing your private key in respect of any address in your control.

Losing control of your private key will permanently and irreversibly deny you access to your Virtual Assets. Neither we nor any other person will be able to retrieve or protect your Virtual Asset. Once lost, you will not be able to transfer your Virtual Asset to any other address or wallet. You will not be able to realise any value or utility that the Virtual Asset may hold now or in the future.

2.2 Transactions irreversible

The nature of Virtual Asset transfers is that they are irreversible. This means that losses due to fraudulent, accidental hacking and technology risks and transactions may not be recoverable. The risk is increased for the limited amount of Virtual Assets that are held in hot wallets (i.e. online environments which provide an interface with the internet).

2.3 Forks and attacks

Virtual Assets may be subject to Forks or attacks on the security, integrity or operation of the networks, including Network Events. Such events may affect the features, functions, operation, use or other properties of any Virtual Asset, network or platform. Please ensure that you read and understand the following:

- (a) The events may also severely impact the price or value of any Virtual Assets, or even result in the shutdown of the network or platform associated with the Virtual Asset. Such events are beyond the control of Crypto.com, or to the extent Crypto.com has any ability to impact such event, Crypto.com's decision or actions may not be in your interests.
- (b) If a Fork occurs, it will result in the creation of a new Virtual Asset (the "**New Forked Asset**") related to an existing Virtual Asset (the "**Prior Asset**"). You further understand, acknowledge and agree that each Fork may materially affect the value, function, and/or name, of the Prior Asset that we hold in your Account and/or Wallet, and that the New Forked Asset may have minimal or no value.
- (c) In the event of a Fork, Crypto.com may temporarily suspend any access to the Exchange and/or Services (with or without advance notice to you) and we may determine, in our sole discretion, whether or not to support the Forked Network(s). In the event that Crypto.com decides not to support any such Forked Network ("**Unsupported Forked Network**"), the Virtual Assets offered by such Unsupported Forked Networks will not be made available to you. Notwithstanding the foregoing, we may, in our sole discretion obtain and retain the Virtual Assets offered by such Unsupported Forked Network as property belonging solely to Crypto.com.

- (d) You understand, acknowledge and agree that you have no right, claim or privilege in, or with respect to, any New Forked Asset unless expressly stated. If we do not support a New Forked Asset, you may not be able to withdraw the New Forked Asset promptly or at all; you may not be able to trade the New Forked Asset on the Exchange or otherwise through our Services; and you may lose any value associated with such New Forked Asset.
- (e) If we determine not to support a New Forked Asset, we may, in our sole discretion:
 - i. obtain and retain the New Forked Asset as property belonging to us; or
 - ii. make the New Forked Asset available to you on a one-time basis, based on your holding of the Prior Asset at the time of the Fork, subject to us withholding and retaining an amount reasonably calculated to fairly compensate us for the cost of making such New Forked Asset available and subject to our withdrawal procedures.
- (f) We will notify you only if we elect to permit a one-time withdrawal pursuant to clause 2.3(e)(ii) above.
- (g) You acknowledge the risks presented by Forks and hereby accept that we have no responsibility for any losses or damage arising as a result of an Unsupported Forked Network.
- (h) WE HAVE NO CONTROL OVER, NOR DO WE HAVE THE ABILITY TO INFLUENCE, THE CREATION OR IMPLEMENTATION OF A FORK OR OF THE NEW FORKED ASSET. WE CAN PROVIDE NO ASSURANCES ABOUT THE SECURITY, FUNCTIONALITY OR SUPPLY OF ANY VIRTUAL ASSET, INCLUDING BOTH THE NEW FORKED ASSET AND THE PRIOR ASSET. YOU UNDERSTAND, ACKNOWLEDGE AND AGREE THAT WE ASSUME NO LIABILITY RELATING TO ANY CHANGE IN THE VALUE OF ANY VIRTUAL ASSET (WHETHER OR NOT RESULTING FROM A FORK). YOU UNDERSTAND, ACKNOWLEDGE AND AGREE THAT A FORK COULD CONSTITUTE A NETWORK EVENT AND/OR A FORCE MAJEURE EVENT BEYOND OUR REASONABLE CONTROL, WHICH COULD AFFECT THE VALUE OF YOUR VIRTUAL ASSETS, AND THAT CRYPTO.COM DOES NOT ASSUME ANY LIABILITY FOR LOSSES RESULTING FROM SUCH EVENTS.

2.4 Cyber-attacks and fraudulent activity

The technologic reliance of the Exchange on the Internet exposes you to an increased risk of fraud or cyber-attack. Any Virtual Asset, Account, Wallet, service, Agreed Communication Method or Trading Tool may be targeted by malicious persons who may attempt to steal Virtual Assets, or otherwise intervene in the Order or any of the Exchange. The nature of Virtual Assets and the reliance on the Internet and blockchain technology means they may be exposed to specific and increased risks of fraud and cyberattacks.

This includes (but is not limited to) interventions by way of:

- (a) distributed denial of service;
- (b) sybil attacks;
- (c) phishing;
- (d) social engineering;
- (e) hacking;

- (f) smurfing;
- (g) malware;
- (h) double spending;
- (i) majority-mining, consensus-based or other mining attacks;
- (j) misinformation campaigns;
- (k) Forks; and
- (l) spoofing.

Virtual Assets, Accounts, Wallets, Agreed Communication Methods, Trading Tools or the Exchange may also be vulnerable to exploitation of vulnerabilities in smart contracts and other code, as well as to human error.

Virtual Assets may be stored in hot wallets which can be prone to hacking or cyber-attacks. Cyber-attacks resulting in the hacking of virtual asset trading platforms and thefts of virtual assets are common. Victims may have difficulty recovering losses from hackers or trading platforms. This could result in significant irreversible loss and/or other impacts that may materially affect your interests.

The above events may affect the features, functions, operation, use, access or other properties of the Virtual Assets, your Account, your Wallet, an Agreed Communication Method or the Exchange.

2.5 Targeting by malicious persons

Malicious entities may target you in an attempt to steal any asset that you may hold, or to claim any asset that you may have purchased. This may involve unauthorised access to your Account, your private keys, your addresses, passwords, email or social media accounts, your log-in details or access method for the Account, as well as unauthorised access to your computer, smartphone and any other devices that you may use.

You alone are responsible for protecting yourself against such actions.

2.6 Cryptographic advancements

Developments in cryptographic technologies and techniques, including (but not limited to) advancements in artificial intelligence and/or quantum computing, pose security risks to all cryptography-based systems including the Virtual Assets, Account, Wallet, Agreed Communication Methods and the Exchange.

Applying these technologies and techniques to Virtual Assets, Account, Wallet, Agreed Communication Method or the Exchange may result in theft, loss, disappearance, destruction, devaluation or other compromises of the Virtual Assets, Account, Wallet, Agreed Communications Methods and the Exchange, or your data (as applicable).

2.7 Reliance on the internet and other technologies

Virtual Assets and the Exchange rely heavily on the internet and other technologies (including the Agreed Communication Methods). However, the public nature of the internet means that either parts of the internet or the entire internet may be unreliable or unavailable at any given time. Further, interruption, delay, corruption or loss of data, the loss of confidentiality in the transmission of data, or the transmission of malware may occur when transmitting data via the internet and/or other technologies. The result of the above may be that your Order is not executed according to your instructions, at the desired time, or not at all. It may also mean that, for reasons beyond Crypto.com's control, you may be prevented from accessing or transferring your Virtual Assets.

No authentication, verification or computer security technology is completely secure or safe.

The internet or other electronic media (including without limitation electronic devices, services of third-party telecom service providers such as mobile phones or other handheld trading devices or interactive voice response systems) are an inherently unreliable form of communication, and such unreliability may be beyond Crypto.com's control.

Due to the public nature of the internet and other electronic media, any information (including any document) transmitted, or communication or transactions made over the internet or other electronic media, may be subject to interruption, transmission blackout, delayed transmission due to data volume, internet traffic, market volatility or incorrect data transmission (including incorrect price quotation) or stoppage of price data feed.

2.8 Risks relating to timing

An Order is binding upon completion of the steps described in these Exchange Terms and Conditions. Following this, the Order will not be reversed unless otherwise provided in this Agreement. There is a risk that the final binding Order does not occur at the same time as Instructions are provided.

You may suffer loss due to the fact that an Order is not carried out at the desired time. In particular, contingent orders, such as "stop-loss" or "stop-limit" orders, may not limit your losses to the intended amounts, since market conditions may make it impossible to execute such Orders.

2.9 Unauthorised access

Unauthorised third parties may access your Account and submit Orders without your knowledge or authorisation, whether by obtaining control over another device or account used by you, or by other methods.

2.10 Technological materials may not be up to date

Crypto.com is not obliged to provide any adaptations, enhancements and/or modifications to technology in connection with the Exchange Materials. This means, for example in relation to the App, that you may have an out-of-date version of the App, and new features may not be incorporated to the version of the App you use. It is your responsibility to ensure you update and download applicable updates and versions.

2.11 Use of Jailbroken devices

The use of the App on a Jailbroken device may compromise security and lead to fraudulent transaction as well as an Event of Default. You may suffer loss as well as a termination of this Agreement.

3 General risk statements

3.1 Jurisdiction-related risks

Residents, Tax residents or persons having a relevant connection with jurisdictions other than Available Jurisdictions are prohibited from using the Exchange and from submitting Orders. Changes in your place of domicile or Applicable Law may result in you violating any legal or regulatory requirements of your applicable jurisdiction.

You are responsible for ensuring that any Order is, and remains lawful despite changes to Applicable Law, your residence and circumstances.

3.2 Product-related risks

Crypto.com and our Group Members may have issued certain Virtual Assets, whereas other Virtual Assets are issued by third parties.

You must read the applicable product terms, product information and risk disclosures carefully before entering into any Order.

No product term or product information has been subject to regulatory approval, unless expressly stated otherwise. You should exercise caution in respect of any such offer.

For any Virtual Asset products that have been authorised by a regulator, authorisation does not imply any official recommendation or endorsement of the product by the regulator, nor does it guarantee the commercial merits of a product or its performance.

You should seek independent professional advice before making any investment decision.

3.3 Tax treatment and accounting

Some Virtual Assets and Orders may be subject to tax laws and regulations in an applicable jurisdiction. The tax treatment and accounting of Virtual Assets (and any ancillary benefits) is a largely untested area of law and practice that is subject to change. The tax treatment of Virtual Assets may vary amongst jurisdictions. We may receive queries, notices, requests or summons from tax authorities and as a result may be required to furnish certain information about the Order.

Among the accounting profession, there are no agreed standards and practices for how an auditor can perform assurance procedures to obtain sufficient audit evidence for the existence and ownership of the Virtual Assets and ascertain the reasonableness of the valuations.

If you are unsure about the tax implications of your Orders, you should seek independent professional advice before carrying out an Order.

3.4 Inflation Risk

Virtual Assets may, either because of the inherent design of the Virtual Asset or through Network Events, not be a fixed supply of assets. Where additional Virtual Assets are created, the asset's price may decline due to inflationary effects of adding additional Virtual Assets to the total assets available.

3.5 Concentration risk

At any point in time, one or more persons may directly or indirectly control significant portions of the total supply of any particular Virtual Asset. Acting individually or in concert, these holders may have significant influence, and may be able to influence or cause Network Events which may have a detrimental effect on price, value or functionality of the Virtual Assets. Network Participants may make decisions that are not in your best interest as a holder of Virtual Assets.

3.6 Country risks

If a transaction is made in a Virtual Asset issued by a party subject to foreign laws or is made on markets in other jurisdictions, including markets formally linked to a domestic market, recovery of the sums invested and any profits or gains may be reduced, delayed or prevented by exchange controls or, debt moratorium or other actions imposed by the government or other official bodies. Before you submit an Order, you should satisfy yourself about any rules or laws relevant to that particular Order.

Your local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where your transactions have been effected. You should obtain independent advice about the different types of redress available in both your home jurisdiction and other relevant jurisdictions before you start to trade. If your country of residence imposes restrictions on Virtual Assets, we may be required to discontinue your access to the Account, and may not be permitted to transfer Virtual Assets back to you or permit you to transfer Virtual Assets from the Account to yourself or

others, until such time as the regulatory environment permits us to do so.

3.7 Regulatory uncertainty

All Virtual Assets are potentially exposed to legal and regulatory risks. The legal and regulatory treatment of some Virtual Assets may change. Regulation of Virtual Assets is unsettled and rapidly changing. As Virtual Assets have grown in popularity and in market size, certain governments and self-regulatory agencies have begun to examine the operations of Virtual Assets and associated networks, users, and exchanges.

Legal and regulatory treatment varies according to the jurisdiction. Different jurisdictions may apply different legal categorisation of Virtual Assets, characterising them as, for example, currency, commodities, virtual currency, virtual commodity, or other property or instruments. Some jurisdictions may restrict or ban Virtual Asset-related activities. The result of such regulatory and legal risk is that any Virtual Asset may decrease in value or lose all of its value. This may affect:

- (a) the use, transfer, exchange and value or potential profit of a Virtual Asset Order; and
- (b) the enforceability of your interest in such a Virtual Asset.

We may cancel or modify your Order, restrict or suspend your use of the Exchange or your Account to comply with Applicable Law or for other reasons as specified in the Agreement. We may also cease to offer a Virtual Asset for trading if its legal and regulatory treatment changes, for example, if it becomes a regulated product.

We recommend you obtain independent legal, tax and financial advice in respect of the Virtual Assets and your Orders.

3.8 Increasing regulation of Virtual Asset markets

Many trading, lending or other dealing platforms, custodians, and other services and markets relating to Virtual Assets are presently unregulated in many jurisdictions. However, substantial additional regulation of Virtual Assets services and markets is underway and may be imposed at any time in the future. The application of local laws and regulations in a variety of jurisdictions to Virtual Assets also remains largely untested, and is subject to change, sometimes without notice. In particular, any current governmental or regulatory tolerance of, or expectations in relation to, certain activities can change rapidly. Multiple consultations are on foot worldwide, with very different lead times. Action may be taken by Governmental Agencies in relation to certain Virtual Assets. As a result of such events, the absolute or relative value, as well as the availability of, certain Virtual Asset may change. This could impair the liquidity of any relevant Virtual Asset market or restrict your and/or Crypto.com's access to such market. You may suffer a loss as a result.

3.9 Conflicts of interest

We or other virtual asset trading platform operators may be acting as agents and/or principals for you. We or other service providers may facilitate the initial distribution of Virtual Assets (such as, initial coin offerings), facilitate secondary market trading, or both, as a traditional exchange, alternative trading system or broker. If these operations are not under the purview of any regulator, it would be difficult to detect, monitor and manage conflicts of interest.

3.10 Authorised Persons

Providing access to your Account to any other person involves risk. You must take all necessary steps to assure yourself that any Authorised Person is appropriate. You must also adopt such controls as you see fit to monitor the activities of such persons in relation to your Account to ensure they remain appropriate to act in that capacity.

3.11 New risks may arise from investing in new types of Virtual Assets or a

change in purpose of use

Subject to the terms and the constitutional documents of each Virtual Asset (for example, whitepapers), the issuer (if applicable) may change the purpose or use of the Virtual Assets or the overall project, without any notice.

Any such changes (including addition of new types of Virtual Assets) may impact the overall risks of the Virtual Asset. You should monitor the developments of each Virtual Asset carefully.

Annex III Disclosure of Conflicts of Interest and Other Matters

The purpose of this Disclosure of Conflicts of Interest and Other Matters ("**Conflicts Disclosure**") is to provide you with information about material conflicts of interest that may arise between you and us when you use the Exchange and/or Services.

1 Decisions regarding Order Execution

By using the Exchange and/or Services, you agree that we have discretion to decide where and how to direct your Orders or to solicit (or not solicit) persons to trade opposite those Orders. When we provide Exchange and/or Services to you, we may direct Orders to other virtual asset exchanges, electronic trading platforms, executing dealers, market makers, liquidity providers, executing firms, individual brokers or brokerage groups for execution. We, or our Affiliates, may derive financial and other benefits (such as the right/obligation to receive/provide payment for order flow or other fees) from decisions on where and how to direct your Orders, as well as on decisions related to Order handling. These decisions may create potential conflicts of interest with regard to our Order handling decisions.

2 Market information

Acting as an Exchange may give us broad access to the current status of certain markets, investments and products. As a result, we may be in possession of information, which, if known to you, might cause you to seek to dispose of, retain or increase interests in one or more Virtual Asset transactions. We are under no duty to make any such information available to you, except to the extent that disclosure may be required under Applicable Law.

3 Ownership and other Interests in electronic trading platforms/exchanges

You should be aware that we may own stock in, or have some other form of ownership interest in, one or more electronic trading platforms or exchanges where your Virtual Asset transactions may be executed. As a result, we may receive financial or other benefits related to our ownership interest when Virtual Asset transactions are executed on a given electronic trading platform, and we would, in such circumstances, have an incentive to persuade you to have Virtual Asset transactions executed on that electronic trading platform rather than in another market. In addition, our employees and officers may also serve on the board of directors or on one or more committees of an electronic trading platform or exchange.
